Dinesh N

AI & Data Science Student

+91 63853 00989 | 7snagadinesh@gmail.com | linkedin.com/in/dineshnleo | github.com/DINESH-7S

Summary

AI & Data Science student who builds AI apps that people can actually use. Built a RAG assistant that answers from 10+ research papers and cites the exact page, and full web apps with Python, FastAPI and React. Led a 6-member team that cleared the college round of Smart India Hackathon 2026, and placed 3rd at NASA Space Apps 2025. Looking for an AI developer internship.

Education

SNS College of Technology — Coimbatore, Tamil Nadu
B.Tech in Artificial Intelligence and Data Science; CGPA: 7.85/10 — *Sep. 2025 – May 2029*

Technical Skills

Languages: Python, SQL
GenAI: RAG, LangChain, Embeddings, Vector Databases
Web & Backend: FastAPI, Next.js, React, Supabase
Tools: Git, GitHub, Streamlit

Projects

Research Paper Answer Bot | *Python, LangChain, FAISS* — Aug. 2026

- Built a RAG assistant over **10+ research papers** that cites the top-3 sources with page numbers
- Compared open-source and commercial embeddings; chose open-source **bge-small + FAISS + a reranker**
- Served answers from Llama 3.3 70B (Groq) in a Streamlit chat app; capstone of GenAI Pinnacle Plus

DHRUV – Polar Knowledge Portal | *Next.js, Supabase, pgvector* — Sep. 2026 – Oct. 2026

- Led a **6-member team** to build a bilingual AI portal for NCPOR; **cleared the college round for SIH 2026**
- Developed the English/Hindi front end in Next.js, with every page switchable to Hindi in one click
- Designed the Supabase database, logins and a two-person approval flow before anything is published
- Team results: a **170-page report became 11 outputs in 51 s**; Q&A bot got **26/26** checked questions right

ElderGuard AI – Elder Care Platform | *React, FastAPI, Groq* — Sep. 2026 – Oct. 2026

- Led a **3-member team** to build **5 linked portals** for elders, caregivers, doctors, hospitals and pharmacies
- Engineered a server-side **SOS** that escalates from caregiver to hospital to emergency services if unanswered
- Implemented medicine reminders that keep ringing until the elder confirms the dose, logged live for the caregiver
- Created the React portals, including a large-text elder view designed for older users

Memoria 3D – Dementia Care App | *Three.js, React Native* — Sep. 2026

- Co-built a **3D virtual home** in Three.js where dementia patients walk through familiar rooms
- Let caregivers pick a house-layout template and upload family photos, so no 3D scanning is needed
- Designed for **memory recall and cognitive stimulation** in elderly patients in Northeast India (SIH26003)
- Prototyped in a **10-hour hackathon**; the app **cleared the college round for SIH 2026** (HealthTech)

Achievements & Certifications

- **3rd Place**, NASA Space Apps Challenge 2025 (local event) — *2025*
- **GenAI Pinnacle Plus Program**, Analytics Vidhya — *2026*
- **AWS Academy Graduate: Cloud Foundations**, AWS Academy — *Mar. 2026*
- **Building Production-Ready AI Agents with Amazon Bedrock AgentCore**, AWS — *Nov. 2025*
- **Generative AI Solution Development**, Databricks Academy — *Oct. 2025*
